Did you know...

- The widespread consequence of COVID-19 that we cannot afford to neglect, is its toll on our mental health.
 - Job losses, media overload and isolating effects of social distancing are leading to an increase in mental health problems.
 - Younger adults ages 18-44 are experiencing a ten-fold increase in serious mental distress compared to 2018.
 - For every one-point increase in the unemployment rate, the suicide rate tends to increase by .78 percent.
- Approximately 50% of lifetime mental health conditions begin by age 14.
- The average delay between when symptoms first appear and intervention is approximately 11 years.
- Suicide is the 2nd leading cause of death among people ages 10-34.
- The overall suicide rate has increased 31% since 2001.

Your support helps Summit provide:

- Professional Counseling
- Psychological Assessments
- School-based Mental Health
- Mental Health Awareness & Suicide Prevention

Now more than ever, The Summit needs your financial support to meet the growing need for mental health resources due to the impact of COVID-19.

TOGETHER WE CAN MAKE A DIFFERENCE!
